

**PHILIP MORRIS
(PAKISTAN) LIMITED**

QUALITY, ENVIRONMENT, HEALTH AND SAFETY COMMITMENT

For Philip Morris (Pakistan) Limited (PMPKL), it is our goal to manufacture and deliver high quality and innovative tobacco products through established and internationally recognized quality, environment, health and safety procedures. We are committed to meet the expectations of adult consumers and build consumer loyalty through continuous improvement and excellence in our products.

We commit to reduce the environmental impact of our business activities and promote environmental sustainability initiatives including climate change mitigation measures. We aim to conduct business with utmost care for the environment and communication with employees, adult consumers and business partners regarding environmental issues and solutions. PMPKL recognizes occupational health and safety as a value in our business. We are committed to the prevention of occupational injuries, illnesses and any foreseeable hazards and to protect our physical assets. We aim to ensure this through compact and effective management practices, creating awareness and constant communications with our employees and interested parties working for or in behalf of PMPKL.

We commit to comply with all applicable quality, environmental, occupational health and safety laws and regulations for our organization.

The above commitments shall be our basis in formulating our objectives for quality, environment, health and safety. We recognize that these objectives are essential in conducting business and for long term success.

This is our long term commitment and we shall continually strive to improve our policies, procedure, programs and quality systems and standards.
